

CLAIM YOUR VOICE : JOIN THE EUC INITIATIVE

The **European Universities Community (EUC)** is a grassroots initiative gathering students and PhD students from European University Alliances. It gives them a voice in the Conference on the Future of Europe, a major public consultation launched by the European institutions in 2021-2022.

Our actions

- **Action 1: Contribute to the multilingual digital platform**

The European institutions have launched a [multilingual digital platform](#) where any European citizen can contribute with ideas on the future of Europe. Join the EUC, and contribute with other students on subjects that matter!

- **Action 2: Inaugural session of the European Students Assembly**

This major event will gather 200 students from European University Alliances in Strasbourg in March 2022. Together, they will design recommendations to impact the future of Europe. [Online applications](#) are open until Nov. 14th 2021.

- **Action 3: Manifesto on the future of European Universities**

What should European universities look like in the future? Contribute to the writing of an ambitious manifesto with your peers.

- **Action 4: Promoting multilingualism and multiculturalism**

Interested in preserving European cultural and linguistic diversity? Join in, bring your ideas, take part in our events or organise your own activities in your university.

Why join us?

Exchange with students from all over Europe, develop your skills, make your voice heard in the Conference on the Future of Europe. You will be awarded a Certificate of participation at the end of the project.
