STUDENTS
AMBASSADORS
PROGRAMME

arQus
European University Alliance

The **Arqus Alliance Ambassadors programme** is an initiative led by the Arqus Student Agora and aims to create a network of student ambassadors of the Arqus Alliance member universities. The programme offers students the opportunity to promote the values of the Arqus Alliance and engage with other students, staff, and members of local communities. The programme is designed to strengthen the Arqus Alliance's position in the international academic community and to raise awareness of the Alliance's activities and initiatives.

The ambassadors are a point of contact for other students who are interested in learning more about the Alliance and its programmes.

The Arqus Alliance Ambassadors programme is open to all students enrolled at the member universities of the Arqus Alliance.

The programme seeks to recruit students who have experienced the values of the Arqus Alliance and are committed to promoting them, have good communication skills, and are passionate about engaging with others.

WHAT IS THE STUDENT AGORA

The Arqus Student Agora aims at promoting student participation and enhancing student engagement at Alliance level, enhancing the students' Arqus experience through student-led creative projects, accelerating students' personal and professional development, enhancing Arqus student services.

Arqus Student Agora has a very unique feature. Each university forms a group of "student contributors" who meet and work with the team to design the student-centred programmes included in the Agora. The contribution does not stop at the moment of implementation, but rather goes beyond the process and implies the yearly monitoring and updates of the deliverables
