

### Information on academic offer and admission procedures (Master's programmes) at the Arqus partner universities

As noted on our website, it is mandatory to have been selected or at least have applied for a master's programme at one of the Arqus universities **before** applying for our scholarship (students already enrolled are **NOT** eligible).

In order to facilitate application and enrolment for prospective master's students, below we provide a table with links to the academic offer, application and enrolment deadlines, and admission procedures of all Arqus universities, along with other helpful information. Please keep in mind that once you have chosen the Arqus university and degree programme you wish to pursue, you must contact the respective university directly for any admission-related questions, as we can only process enquiries related to our scholarship scheme.

\*\*\* Please do not contact Maynooth University staff regarding Arqus Talent Scholarship Fund queries. *(Continued on next page)*

Also, please note that, for any School of Business Master's programme at Maynooth University, it is not possible to take a mobility period during the 12-month duration of the course. A separate mobility arrangement will be put in place for students in receipt of the scholarship and taking a MU School of Business programme to facilitate their Arqus mobility after the completion of the 12-month degree. Please do not contact the School of Business at Maynooth University with any Arqus Talent Scholarship Fund-related queries.
