

Living Lab Heritage & Society: Theoretical and methodological background for co-constructing heritage knowledge with the local community

23-27 June 2025 in [Extremo](#) (Arcos de Valdevez, Portugal)

Organised by: University of Minho (Portugal), Leipzig University (Germany), University of Granada (Spain)

Titled “Living Lab Heritage & Society: Theoretical and methodological background for co-constructing heritage knowledge with the local community”, this workshop seeks to use the village of Extremo as a living laboratory, drawing on previous archaeological work, memory and heritage analysis and community-based research.

The workshop will allow students, teachers and researchers to engage with the local community, addressing local development issues through co-creation and collaborative knowledge building, focused on cultural heritage and the agrarian landscape. The experience will be enhanced by the contribution and experience of lecturers and researchers from 3 Arqus universities (Granada, Leipzig and Minho), as well as from other universities such as A Coruña and Oviedo (Spain).

Funding:

This initiative was supported through the Multiannual Funding of the Landscape, Heritage and Territory Laboratory (Lab2PT), Ref. UID/04509: Laboratório de Paisagens, Património e Território (Lab2PT/UM), financed by national funds (PIDDAC) through the FCT/MCTES.

This initiative is supported too by the Arqus European University Alliance and the Universities of Leipzig (Germany) and Granada (Spain).

Programme overview

Modality: Blended

Place of celebration: local council of the parish of Extremo, Arcos de Valdevez; fields of Extremo; online

Language: English, Portuguese, Spanish
